Health**e**systems Expands Operations and Opens Arizona Office

Tampa, FL — Health**e**systems LLC (Health**e**systems) continues to expand its operations through the addition of a new office location in Scottsdale, AZ. The 8,000 square foot office space — located at 15300 N. 90th Street, Suite 600, Scottsdale, AZ 85260 — will accommodate up to 50 employees when staffing is complete. As of July 20, 2009 the Scottsdale office is fully operational.

Health**e**systems is a specialty provider of innovative medical management solutions for the workers' compensation industry. Employees of the new office will assist in providing customer support services for pharmacies, claims adjusters, nurse case managers and others. The office is staffed with Certified Pharmacy Technicians and Customer Service Associates and is fully integrated with the company's other Customer Service Center location in Tampa, FL.

The additional office location will also help support business continuity, aid in disaster recovery initiatives, assist with ensuring full staff coverage to support the 24/7/365 Customer Service Center operation and will provide additional support to new account implementations as the company continues to grow.

"We are excited to continue expanding our presence in the western region, especially because of the proximity to some of our key customers," stated Daryl Corr, President of Health**e**systems. "The prevalence of an experienced pool of pharmacy professionals in the area made opening the office in Scottsdale a natural decision for us."

Health**e**systems is a specialty provider of innovative medical cost management solutions for the workers' compensation industry. The company offers a diverse suite of services including a leading pharmacy benefits and clinical management program as well as a prospective adjudication solution for managing ancillary medical services. Leveraging powerful technology, clinically-based outcomes management expertise and enhanced workflow automation tools, Health**e**systems provides clients with flexible programs that reduce the total cost of medical care while increasing the quality of care for injured workers. ::

Expert clinical services. Exceptional technology. Extraordinary results.
