Healthesystems**™ Goes Live with Pharmacy Benefits Management Program for The State of Wyoming Workers' Compensation Fund**

Tampa, FL - Health**esystems** LLC (Health**esystems**), a leading provider of medical cost management solutions for the workers' compensation industry, has gone live with The State of Wyoming Workers' Compensation Fund's new pharmacy benefits management (PBM) program. The Health**esystems** program implementation follows a contract awarded in July 2008.

"We are pleased to be partnering with The State of Wyoming and adding this new client to our growing portfolio of state fund accounts," commented Daryl Corr, President of Health**esystems**. "In fact, our innovative pharmacy management model has already proven extremely successful with our other state fund clients."

The State of Wyoming Workers' Safety and Compensation Division serves approximately 17,000 employers.

Health**esystems** is a specialty provider of innovative medical cost management solutions for the workers' compensation industry. The company offers a diverse suite of services including a leading pharmacy benefits and clinical management program as well as a prospective adjudication solution for managing ancillary medical services. Leveraging powerful technology, clinically-based outcomes management expertise and enhanced workflow automation tools, Health**esystems** provides clients with flexible programs that reduce the total cost of medical care while increasing the quality of care for injured workers.

Expert clinical services. Exceptional technology. Extraordinary cost savings.
